

Sauna Doors

FINLANDIA Sauna Wood Doors are manufactured from the highest quality vertical grain Douglas Fir available from the Pacific Northwest. Engineered door stiles and solid rails insure long term stability. All of our wood doors are fitted with hermetically sealed, tempered, insulated glass, which provides superior insulation and heat retention.

Standard Sauna Doors

Our standard FINLANDIA Sauna door is 24" x 80" and is fitted with clear insulated glass measuring 16" x 60". Standard rough opening is 26" x 82". Standard jamb is made of Hemlock with jamb width of 4 3/4". All doors available with left or right hinge.

Etched Glass Doors

Our exclusive glass options have been custom designed and etched by an artist. When ordering this option, you have a choice of our unique Sauna Scene or Rustic Sauna designs in positive or negative image, or a choice of our beautiful Scenic Designs: Mt. Hood, Multnomah Falls, Liberty, Lighthouse, or Sailboat. Artwork is sealed inside the insulated glass unit so that etchings are protected from smudging or scratching. Etchings are available for the 24" door size only but some custom sizes may be special ordered.
